

Flexy Traction™ CombiFlex with Single and Dual Shore – 1.5 Bellows

COMBiFlex

Vacuum Cup Properties

Material	Color	Temp. Range	Shore Hardness
Polyurethane	DarkBlue/ Blue	5°– 50°C	30°/60° Shore A

20 Series - Flexy Traction Cups

- Our 20 Series “Flexy Traction” you will find in the sizes from Ø 30 mm to Ø 100 mm .
- Normally our polyurethane vacuum cups will last 3-4 times longer than the cups made of rubber or other vulcanized materials. This means less “down time” but more “turn over” with increased productivity.
- Key characteristics are good resilience or flexibility, high tensile strength with high wear and tear resistance. Comparing to other famous brand names, our product quality is comparable or even better
- The 20 Series cups are specially designed to cope with both flat and a bit curved surfaces, suitable applications are cardboards etc. The 60 shore is also useful in the stamping industry. The cleats under the lip also provide a good grip.

20 Series - Flexy Traction Cups
