

# CERT-A-LIFT VII<sup>®</sup>

Is Your Workload Weighing You Down?  
**Let LHR Give You A Lift!**

## Safety Is Our Business

The Cert-A-Lift VII<sup>®</sup> from LHR provides for the safe moving of palletized loads via crane.

The Cert-A-Lift VII<sup>®</sup> converts your overhead crane into a forklift vehicle, allowing pallets of material to be moved throughout a worksite where traditional forklift trucks or cranes may not have access.

## Specially Designed

The Cert-A-Lift VII<sup>®</sup> is specially designed for lifting palletized loads.

The four-point lifting sling allows for an evenly distributed and balanced load. The quick release lugs permit easy hook-up. A floating low profile spreader ring reduces cable windage.

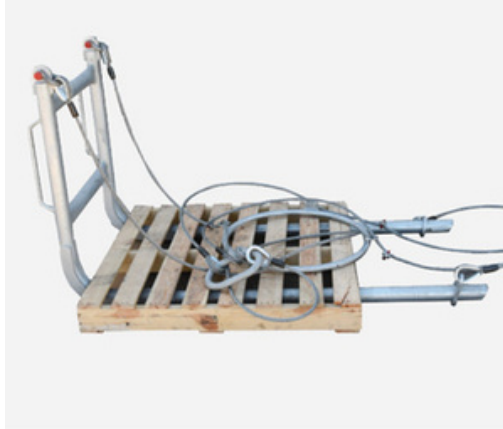

SAFE OVERHEAD PALLET  
LIFTING

# CERT-A-LIFT VII<sup>®</sup>

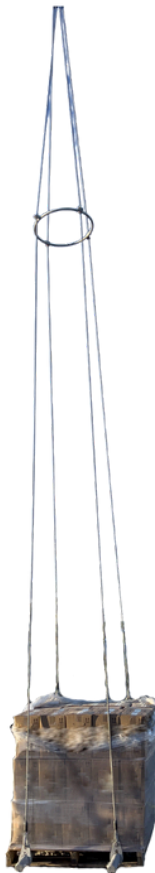

SAFE OVERHEAD PALLET  
LIFTING

**Ready To Ship** \*Pallet not Included

**Easy Hook Up** Secure locks hold in place

### **Four Point Lifting**

Floating low profile gives even distribution of weight.

### **Safety In Mind**

Built-in positioning handles ensure hand safety and easy maneuverability.
